		TYPE:	Long
		LOC:	N/A
		DURATION:	150 MINUTES

Working tools and delivery requirements

- **Working tools:** Visual Studio Code
- **Delivery:** Source code in a compressed archive (zip extension is a must).

Technologies

The product illustrates:

- Front-end Essentials.
- Practice to use JavaScript to interact with DOM.

Technical Requirements

- Follow the standard naming and coding convention.
- Add appropriate comments for each class, method, attribute...
- Create Project named <YOUR ACCOUNT>_fee.exams.opt1 and put every file inside

Example: If your account is AnhNV then you must create a project called: **AnhNV_fee.exams.opt1**

Problem: Build a Student Management Web App

Given an array of students:

```
var studentArr = [  
  {  
    firstName: "Tran Thi Minh",  
    lastName: "Thuy",  
    studentCode: "B16DCXXYYY"  
  },  
  {  
    firstName: "Le Thuy",  
    lastName: "Trang",  
    studentCode: "B17DCXXYYY"  
  },  
  {  
    firstName: "Vu Thanh",  
    lastName: "Loan",  
    studentCode: "B18DCXXYYY"  
  },  
  {  
    firstName: "Dam Thi",  
    lastName: "Thu",  
    studentCode: "B19DCXXYYY"  
  }  
];
```

Your task is to build a Student Management Application that looks like below (correct spacing and icons are not required).

Student Management

Last Name:

First Name:

Code Name:

+ Add

#	Last Name	First Name	Student Code	
1	Tran Thi	Thuy	fc2f05e503ea	 
2	Le Thuy	Trang	53b933697d3f	 
3	Vu Thanh	Loan	a8f46cf3f5d8	 
4	Dam Thi	Thu	441fa6464da8	 

Specification

1. Use HTML, CSS Frameworks and JavaScript.
2. The application should correctly render the information from the provided array.
3. Users should be able to add a new student by clicking the "+ Add" button or pressing "Enter" after entering values in the input text box. The input fields should be cleared after each addition, and a new student should not be added if any of the input text boxes are empty.
4. Users should be able to edit a student by clicking the pen icon. Upon clicking the pen icon, the student's data will be displayed in an input text field for editing. The "Add" button will toggle to an "Save" button. After clicking the "Save" button, the corresponding student will be updated, and the "Save" button will toggle back to the "Add" button.
5. Users should be able to delete a student by clicking the trash icon. Make sure to properly render the order number of each student after a deletion.
